

PROCOR COVID-19 (“CORONAVIRUS” CAPABILITIES)

The Coronavirus may be new, but our experience in helping our clients deal with these situations is not.

Our team at Procor Solutions has supported businesses and organizations with quantifying, preparing and recovering business interruption-related losses in every major disaster for the last 20 years. Regardless of potential recovery avenues, whether it be through insurance, federal or state grants or contract disputes, our strong recommendation is that all businesses and organizations – large or small – start calculating and documenting their losses in a professional, clear manner.

Here are some helpful hints:

- Document the financial changes in your business on a timeline that coincides with the Coronavirus outbreak.
- Identify any expenses incurred as a direct result of the pandemic.
- Compile data on lost revenue resulting from the viral spread.

PROCOR SOLUTIONS CORONAVIRUS SERVICES

- ▶ Claim Preparation & Presentation
 - Business Interruption
 - Extra Expense
 - Property Damage
- ▶ Builder’s Risk Claims

RESULTS:

- Procor’s attention to detail, and accurate loss evaluations, streamline the process for our clients resulting in equitable settlements while maximizing reimbursement opportunities. By combining our pre and post-loss experience as part of our service offering, our clients are better prepared if/when disasters strike.
- Procor’s experience and team is diverse; comprised of claims adjusters/ project managers, construction estimators, and forensic accountants who prepare, present and quantify financial impacts, including – business interruption or project delays.
- Procor’s fees can be reimbursed through an insurance policy, and/or or through the FEMA Public Assistance Program.

Let Procor Solutions help you navigate the COVID-19 Pandemic

Life for people around the globe has changed dramatically over the past few months. Yesterday's 'normal' no longer exists, and individuals and businesses must start to consider what 'normal' will look like post-Coronavirus. However, in order to begin to assess the future, businesses must concentrate on the 'now', by responding, acting diligently, and quantifying any financial impacts sooner rather than later. Understanding Coronavirus impacts early on, will allow businesses to gauge the road to recovery as new programs are implemented and more options become available.

Keep in mind we are here to help!

We have created a collection of **FREE RESOURCES** that are available for review and download from our website.
